CAREER OBJECTIVE

Computer Science and Engineering student and full stack developer with hands-on experience building responsive, animated web applications using React, Next.js, Node.js, Express, and MongoDB. Seeking a Junior Full Stack Developer role to apply strong frontend and backend development skills to real-world production systems while continuing to grow as a software engineer. Also exploring machine learning and computer vision through independent project work.

SKILLS

Languages: JavaScript, Python

Frontend: React, Next.js, HTML, CSS, Tailwind CSS, GSAP, Framer Motion

Backend: Node.js, Express.js, REST API, JWT Authentication

Database: MongoDB

AI / ML: TensorFlow, Keras, Machine Learning, Computer Vision, Deep Learning

Tools: Git, GitHub, VS Code, Figma, Canva, Google Colab, Kaggle

Interpersonal Skills: Teamwork, Communication

PROJECTS

DocAppoint — Doctor Appointment Booking System

Next.js, React, Node.js, Express, MongoDB, JWT | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

Full-stack platform enabling patients to search, book, and manage doctor appointments securely.

- Search and filter doctors by specialty, rating, and consultation fee for quick discovery
- Book, reschedule, and cancel appointments instantly via a personalized patient dashboard
- Sign in securely with email/password or Google & GitHub social login (JWT-secured)
- Enjoy a fully responsive experience with dark/light mode across desktop, tablet, and mobile

BloodLife — Blood Donation Management Platform

React, Node.js, Express, MongoDB, Stripe | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

Platform connecting voluntary blood donors with individuals and hospitals across Bangladesh.

- Search and locate blood donors by blood group, district, and upazila across Bangladesh
- Track and manage donation requests through role-based Donor, Volunteer, and Admin dashboards
- Contribute to donation campaigns securely via integrated Stripe payment funding
- Access protected, role-specific features through secure JWT-based authentication

IgniteFund — Crowdfunding Platform

React, Node.js, Express, MongoDB, Google OAuth 2.0 | [Live Demo](#) | [Client Repo](#) | [Server Repo](#)

Role-tailored crowdfunding ecosystem connecting Supporters, Creators, and Administrators.

- Discover campaigns with live search, category filters, and sorting
- Pledge and purchase credits as a Supporter, with full contribution and payment history tracking
- Create and manage campaigns, monitor funding progress, and request withdrawals as a Creator
- Sign in securely via Google OAuth 2.0 with session persistence across visits

EDUCATION

Bachelor of Science in Computer Science and Engineering

University of Liberal Arts Bangladesh (ULAB)

2023 – Expected December 2026

CERTIFICATIONS

Complete Web Development Course with Programming Hero

Programming Hero (Batch 13, ID: WEB13-4779) | [View Certificate](#)

Jan 2026 – Sep 2026

LANGUAGES

Bangla — Native | **English** — Professional Working Proficiency
